SUMMARY

Software Engineer with nearly 3 years of experience building React and TypeScript products. At Origins AI I work on Afton Tickets, a B2B event-ticketing platform, shipping features end to end across React dashboards, an embeddable checkout and the Laravel/Vue core.

EXPERIENCE

Software Engineer

Origins-AI

01/2025 - Present Remote

A dynamic and innovative AI company specialising in AI education and consultancy services.

Afton Tickets · event-ticketing platform · 08/2025 - Present

- Built the Lineup Builder end to end: Laravel parsing service, Discogs artist import, React builder, and lineup UI in Vue and the checkout.
- Shipped season-ticket renewals in the seat map with React, TypeScript and Redux Toolkit.
- Delivered Layaway payment plans and custom AG Grid reports in the organizer dashboard.
- Reskinned the embeddable checkout and event listing (React, Vite, Webpack).

Zoca · websites for local businesses · 01/2025 - 07/2025

- Built Next.js SSG website templates used by 1,000+ SMBs; cut UI load times by 30%.
- Built Raft, an internal CMS dashboard with queue management and job automation.

Software Engineer (Intern → Full-time)

Hanabi Technologies

01/2024 - 12/2024 Remote

- Worked on Hana, an AI team assistant for Google Chat with 20k+ installs: NestJS APIs, MongoDB pipelines and cron jobs.
- Built the Hana dashboard in React and MUI with role-based routes; improved sign-up and interaction by 50%.
- Built the company and product websites in Next.js.

Project Engineer

Sankalp Builders

01/2021 - 09/2022 Jaipur, India

- Managed client requirements, schedules and the site team for on-time delivery.

EDUCATION

Bachelor of Technology

Sangam University

08/2018 - 07/2021 Bhilwara, Rajasthan

Web Development Bootcamp

neoG Camp

02/2023 - 10/2023 Bengaluru, Karnataka

SKILLS

React.js TypeScript JavaScript

Redux Toolkit Next.js Vue.js Node.js

Express.js Nest.js Laravel PostgreSQL

Supabase MongoDB AWS Lambda

HTML CSS / SCSS Tailwind MUI

AG Grid Webpack Vite Git / GitHub

Rest API's SEO

PROJECTS

ATM Status

atmstatus.vercel.app

Live map of working ATMs, piloted in Bhilwara. React, TypeScript, Supabase, PostGIS.

- Two-tap status reports with no sign-up.
- Nearest-ATM search with PostGIS across India, seeded from OpenStreetMap.

Deploy Tracker

Self-hosted release dashboard. Python, GitHub Actions, Jira API.

- Finds changes merged to demo that never reached production.
- Checks deploy status and Jira; generates cherry-pick commands and Slack alerts.

Chatbot Flow Builder

bitespeed-flow-six.vercel.app

Visual chatbot flow editor. React, TypeScript, React Flow.

- Drag-and-drop flows with per-node settings.
- Flow validation and autosave.
